

June 2024

From the Desk Of The DG

Well as I write my last official address as District Governor in the June Communique, I would first like to say, what an honor it has been to be your DG this past year, we have accomplished a lot together! I am beyond words, as I try to put something on paper. We have endured a natural disaster, and kicked mother nature butt. And got Vermonters on the road to recovery hours after the storm had hit. We have had many fun times, as well along the way, I have met many new friends that I will enjoy for the rest of my life. We have grown our membership, with all of your hard work and dedication!! So Thank you all!! We are not slowing down yet, there is still time to add new members and new clubs, so do not take your foot off the gas pedal just yet. Just because one year ends and a new begins, doesn't mean our progress should stop, we are a seamless group.

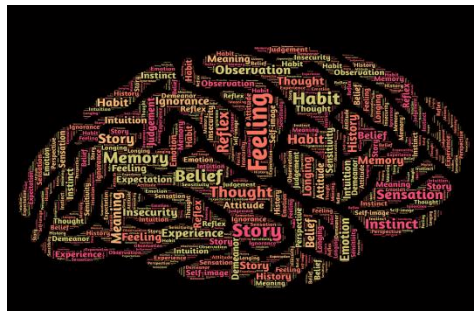

We had a Great Spring Convention, a Huge Shout out to PDG Carol for her help in a successful convention THANK YOU!!! The murder mystery was a blast. I hope everyone had fun and was able to let their hair down and have some fun, everyone deserved it!!

I am looking forward to working closely with DGE Deb and her team as they begin their year, and let's get excited to take this District to new levels under her reign!! Good LUCK DGE DEB WE have your back!!

Lets ROAR!!

DG Travis

Thoughts from District Governor Elect Deb Savery

As I sit here and write this message to you all, I can't help but marvel (and shudder a little) at what lays before me for the coming year. I am excited to take the trips to visit you all during your club meetings. I look forward to attending events and projects that District 45 members are so famous for putting on. Along with all your activities, I hope to provide the support you need to help District 45 grow and prosper. We are a small district. We are a small state, but we are a giant when it comes to dedication, commitment and ingenuity.

Our clubs have proven time and again that when we need something new and fresh, Vermont Lions can deliver. Want to grow membership? Put up a dog park. Want to get the community aware that Lions are present? Hold silly, fun events, something out of the ordinary and crazy!

In the coming months I hope to take some of that ingenuity and forge new interest in Vermont Lions. I believe we can take some of the stability and dedication we've established through the years and build on it to create more clubs and membership. I further believe that if we can show to the people in our communities that Vermont Lions Clubs are here for the whole family we will be able to grow our membership substantially in ways that include even the youngest members of the family. Cub Clubs, Leo Clubs, the new revised Lions Quest are all vehicles that can be used to show how there is something for everyone in Lions. Though the Cubs cannot be counted in membership, yet, clubs will be planting the seeds that will sprout and possibly grow into something substantial and productive down the road.

Again, I'm looking forward to my year as district governor and working with the clubs of District 45 as we expand our membership and service to the people of Vermont, and yes, the world.

Yours in kindness and gratitude,

DGE Deb Savery

From International Director Steve Middlemiss

As you read this the Lions year 2023-2024 will be winding down soon. We have made great strides in increasing our membership worldwide under Mission 1.5 but there is still work to be done. As I write this article, we have 1,390,000 members a + 44,800 worldwide for the year and -20 in our Constitutional Area. Retention is a key point in our remaining positive worldwide and towards the US becoming positive for the first time in a number of years. We need to look to our members for their ideas on projects. Ask them what they are passionate about and work to create projects around those passions. Members want to feel involved. One of the leading reasons members leave is they are not engaged. Also reach out to members who you may not have seen in a while. They are our Lions family and just like our own families we need to be sure that we let them know we are thinking of them. We all want to feel valued and by reaching out we can encourage them to become involved again. One phone call could re-engage a member.

As a reminder to the incoming leadership of the district's the position of Global Extension Leader will become a required position this upcoming year. At the convention in Australia one of the items on the ballot and if it passes, we will add the District GAT team (GET, GLT, GMT, GST) and LCIF chair to the current list of individuals as a candidate for the office of Second Vice District Governor. All other requirements will remain.

Current SVDG training will begin this upcoming summer. So those of you who are moving into that position watch for upcoming emails and info regarding the training sessions.

LeeAnn and I have been so fortunate to have represented you this past year and are looking forward to the next year as we continue to serve on the International Board. We hope to see you in Melbourne.

We continue to look forward to serving the Lions of the World as we all work toward "Changing the World".

Yours in Lionism,

ID Steve & Lion LeeAnn

A big thank you to Arlington Lions, Lion John Toth (Arlington Lions) and Lion Andrew Perry (Essex Jct Lions) who made the trip to New Jersey with a U-Haul loaded with approximately 244,000 of eyeglasses collected by District 45. Also, a special thanks to the clubs for their collection of eyeglasses.

All types of used eyeglasses and sunglasses, prescription or non-prescription, for children and adults are accepted. Reading glasses are also useful for those who perform close-up tasks while at work. Sunglasses are needed for people living near the equator, especially those with cataracts.

Hope you enjoy some photos from their trip.

“Drawers of My Mind”

Today I gathered all my courage for a long journey: And opened the drawers of my mind.

I started from the top drawer because the most used things are always at the top. I saw everyday topics there: What to do, study, eat, to brush teeth and many similar things. But these are not the main goals of my discovery. So, I gently closed the first drawer.

It was the second drawer's turn. I said, "let's find it this time". There resided slightly different things. What I keep as memories and symbolic items that left a mark on me. A key that my parents gave me to open the door. However, I never come home alone. Then I realized that it was actually meant to tell me that this is my home and that I am a part of this home. Then I saw the notebook my father gave me on my ninth birthday. On the first page he noted:

"My son, my pride, my dear ... I believe that you will take notes on many pages, like the ones on this notebook, and become a very important scientist. Wish you good luck, I love you. Your father".

As today's twelve years old Yekta Yağiz, I understand that my father gave me a very valuable gift; his trust.

With this understanding, I moved to the third drawer of my mind. This time I opened it with more excitement. And soon realized that it was pitch black. But black doesn't always mean darkness. I looked deeply at the very center of that blackness. I remembered how everyone is constantly telling me that "I can't do it, be careful, it's difficult". Then a glimmer of hope shining in my eyes said ... "Don't be afraid, Yekta! Dare to dream!"

I dared to see through my heart among the "actually blind" who closed their eyes to hope and imagination. I raised my head up to the sky and dreamed. As they said, I couldn't see colors, but I added a thousand colors to the rainbow in my imagination. White is not always bright, and black is not always scary. These are all misconceptions piled up in the drawers of our minds.

I didn't have a fourth drawer. We can't always find a new drawer to start over. But I can fill the empty black drawer with dreams. That's what I'm doing now. What I have done so far and my self-confidence proved that I am on the right track.

As my father's wish, I am on my way to become a scientist. This might be considered a dream for a visually impaired person. But I have the courage to make it happen.

I am a good swimmer and a good runner today. Only because I dreamed that I would succeed. Now it's time to continue to "dare to dream", without letting anyone stop me. My journey is full of hope. And it is ETERNAL.

Lions International

Dear Lion Leader,

We are writing to share an important update on our international convention in Atlanta. We have been informed that the City of Atlanta has cancelled its commitment to host the 2026 Lions International Convention due to the schedule for the upcoming 2026 FIFA World Cup, which will host eight games in the city at the same time.

We are incredibly disappointed that we will be unable to host the Lion event of the year in one of the most dynamic cities in the world.

Due to this unfortunate decision, work has begun to identify a suitable host city for 2026, and the Convention Committee will take up the topic during upcoming meetings in Melbourne, Australia. At this point, there is no plan to reschedule convention in Atlanta, but the committee will look to evaluate the host city for a future event.

The executive officers would like to thank the Atlanta Host Committee for their efforts and the work already in progress.

We are saddened to report this news today. However, we are fully committed to identifying a new host city with the same world-class amenities and character as Atlanta, Georgia, U.S.A.

Yours in service,

Dr. Patti Hill
